

Banish the Blues NOW

Banish the Blues NOW addresses HEALING DEPRESSION WITHOUT DRUGS using NATURAL HEALING remedies. Did you know that the Centers for Disease Control and Prevention reports that 11 percent of all Americans over the age of 12 take antidepressants? Women are more likely than men to take these drugs at every level of severity of depression. Non-Hispanic white persons are more likely to take antidepressants than are non-Hispanic black and Mexican-American persons. Of those taking antidepressants, 60 percent have taken them for more than 2 years, and 14 percent have taken the drugs for more than 10 years. About 8 percent of persons aged 12 and over with no current depressive symptoms took antidepressant medication. Despite the widespread acceptance of natural healing methods, from 1988-1994 through 2005-2008, the rate of antidepressant use in the United States among all ages increased nearly 400 percent. It is my prayer that my new book will be of service in teaching you how to heal depression without drugs, banishing your blues FOR GOOD! FOREWARD By Abram Hoffer, M.D., Ph.D., FRCP(C) Editor, The Journal of Orthomolecular Medicine
