

## All Within: The Internal Journey of Huntingtons Disease

Susan Lawrence continues her drive, building awareness as a full time advocate for families living with Huntingtons disease. All Within is a compilation of personal stories from individuals within the HD community. Susan has turned to the families to openly share their stories and now moves forward with her fifth addition of writings about HD, sharing personal messages behind the struggles of many. HD is a genetic disorder that affects people worldwide. There are those who suffer from the adult form of Huntingtons disease, and the Juvenile form that prevents children from being able to reach adulthood and live full lives. There is currently no cure! It is a frustrating battle for us to help the world understand that it is whats inside that prevents us from finding peace. That means if we are not proactive advocates and continue sharing our experiences, everything is at risk of remaining All Within.
