

# Assessing Student Affect, Mastering Assessment: A Self-Service System for Educators, Pamphlet 2

A child's affect is every bit as important as--if not more important than--his or her cognitive accomplishments. This booklet, *Assessing Students Affect*, explains how understanding the nature of students' attitudes, interests, and values can play a critical role in shaping teachers' instructional decisions and helping them encourage students not only to learn, but also to enjoy the process of learning.

The *Mastering Assessment* series is a set of fifteen practical, easy-to-use booklets covering a wide range of topics related to educational assessment and accountability. These groundbreaking booklets put the most relevant information on assessment at teachers' fingertips and provide an important resource for educators looking to learn the ins and outs of becoming assessment literate. Paired with the series *Facilitators Guide* (available for download at no additional charge from Pearson's Instructor Resource Center), *Mastering Assessment* is the perfect tool for building assessment literacy either in self-study or a professional development program.
