

Thyroid Disorders and Related Health Conditions: Eight Intriguing Sections on the Metabolic Butterfly

This Eight Section book is comprehensive on the subjects of thyroid disorders and health conditions that are strongly related to them. The information is thoroughly researched and very high quality. Symptoms are discussed, as well as diagnostic and treatment methods -- both medical and natural. The reader will learn about the most effective treatments available for thyroid diseases, including facts about how thyroid hormone therapy can be tweaked and optimized for best possible results. Other health conditions that are strongly associated with thyroid problems, are also discussed in detail, including *joint/muscle pain, *chronic fatigue, *emotional disorders and *fatigued adrenal glands. This resource is extensive, containing 107 Chapters and approx. 70,375 words. The beginning and ending page numbers are referenced for each section in the MAIN TABLE OF SECTIONS of the book, so that a reader can page to specific sections as needed.
