

Blueprint: Out of the Blue: Video Teachers Book (Blueprint Series)

Blueprint One and Blueprint Two are courses for young adult and adult students of English. They are suitable for complete beginners and for those who already have some knowledge of the language, and provide between 90 and 120 hours of work. They are designed to help students to become confident in speaking and understanding simple English. The courses give them a formalized knowledge of how English works to support their communicative practice and at the same time aim to develop good learning habits and techniques which students need both in class and when studying on their own. This teachers book is designed to accompany the videos, Out of the Blue (part of Blueprint One) and The Winning Team (part of Blueprint Two). Both videos offer entertaining and appealing stories in order to motivate learners. Following the structural, functional and lexical syllabus of the language courses, they use natural dialogue and carefully graded language.
