

Class Warfare - Americas Cancer: My country, tis of thee, Sweet land in jeopardy, For thee I weep!

A Rapacious Capitalistic Monarchy is winning the war. This Economic Aristocracy controls enough of our nations assets and power to begin dictating that the rest of us are to live as their wealth generating servants. Class Warfare - Americas Cancer details the development of our financial inequality, how our politicians and sociopathic wealthocrats created the plutonomy that now dominates us, and how much the massive shift in incomes has impoverished every income level. A ruthless oligarchy based on todays power, unrestrained economic muscle, wages an undeclared, unrelenting, class war on their prey, the 99%. They have already converted our government into an ATM that funnels most of our nations wealth into the hands of a very select few. Unless the vast majority of Americans counterattacks, its economic lot will continually diminish at the hands of the hyper-rich who rule with the support of their bought-and-paid-for, puppet government. Their castles atop the hills will grow ever more opulent, the better to overlook the expanding blighted neighborhoods below. Fortunately, there is a way out. The 1% has only 1% of the votes. Citizens acting in their own best interests, can enact an agenda for America that reverses the slide toward economic servitude by rebuilding the Middle Cass, along with the rest of the 99%.
