

Ghost of Hoppers (Love and Rockets)

Maggie returns in Hernandez's first book since the smash hit *Locas*. *Ghost of Hoppers* collects for the first time the new adventures of Maggie Chascarrillo, as serialized in the *Love & Rockets* comic book, and represents Jaime Hernandez's much-anticipated follow-up to his critically acclaimed 2004 magnum opus *Locas*, which *Entertainment Weekly* gave an A for its innovative technique and complex, character-driven stories about Mexican-American life. *Ghost of Hoppers* begins with the newly divorced Maggie now working as the resident building-manager of the notorious Capri Apartments deep in the heart of the San Fernando Valley, where imaginary dogs roam its walkways at night, all the air conditioners are broken, and the empty swimming pool is covered with flies. As if the eccentric, oddball tenants weren't weird enough, Maggie's houseguest and old friend Izzy Ortiz shakes things up with her usual nervous breakdowns, nocturnal screaming, and obsessive fly-swatting (sometimes with a knife!). When Izzy makes a guest appearance on a local cable access talk show to promote her book, Maggie meets the voluptuous Vivian the Frogmouth, a curvaceous, hapless bombshell with a foghorn voice who is despised by Hopey (Maggie's long time on-again-off-again girlfriend, now a bartender sporting an eye patch after one of Vivian's previous bottle-breaking altercations). Maggie finds herself swept up in Vivian's life of random catfights, her mob-connected, knife-wielding stalker ex-boyfriend, and his violently jealous fiancée. Maggie and Vivian eventually strike up a reluctant and awkward romance, and when they set out for *Hoppers* to retrieve a stolen art object from Izzy, they get a lot more than they bargained for! About Jaime's work, the *New York Times* wrote, These stories have all the visual smarts of film and the narrative smarts of literature. Hernandez
