

## Darfurs Sorrow: A History of Destruction and Genocide

Darfur is a region set apart, huge, remote and poverty stricken. Its people are today locked in conflict, terrorised by the lawless Arab militia known as janjawid. As M.W. Daly explains, the roots of the crisis lie deep in Darfurs past. Tracing the story from the origins of the Fur state in the seventeenth century to Darfurs annexation by the Anglo-Egyptian Sudan, he shows how years of neglect left the region unprepared for independence. This complex story is told with compassion, insight and a strong sense of place.
