

# DIY Book of Interesting Inventions: Do-It-Yourself Homeschooling - Make Your Own Book (Notebooks for Creative People) (Volume 13)

This book is designed for middle-school and high-school homeschooling. The student will use this blank book template for their own writing and illustrations. Students take their work more seriously when they feel like they are creating something real. If studying inventions is part of this year's homeschooling plan (and it should be) this book will be very popular with your student. Imagine if you had a book like this when you were a teen? School can be so dull, but it shouldn't be. So try this! There are many Make Your Own Book topics to choose from. Use them for unit studies on a variety of homeschooling subjects. These books should be used with a stack of library books. If you can't get to the library you can study your topic online and record what you learn into this real book. Not just a boring book report - these little DIY books become treasures. Not just for students! Anyone who loves to write and has always wanted to be an author, poet or illustrator can take the next step with this real book template. Make Your Own Book Of Interesting Inventions Kids LOVE to create their own real books. You will love creating a real book. Even your high school students will love creating real books. If you have a student who is learning about inventors, inventions, and creative discoveries you can take learning one step farther! Anyone who enjoys drawing or doodling can write and illustrate their own impressive book about inventions! Real learning happens when a student applies their knowledge by creating something. Your student will be so proud to be an author & illustrator! Instructions: Buy this Book and a set of smooth black graphic drawing pens. Next go to the Library and get a big stack of real books on this topic. Kids need more time with real books and less time with gadgets anyway. The student will copy all the best stuff into this book and use some imagination. The

book is beautiful on the inside, and has lines for writing and blank areas for drawing. For Grade 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12 Homeschooling for ages 6 to 17 If you are homeschooling a middle school or high school student. You need this book. DYI is the MOST fun way for them to learn and apply knowledge! These books are cool, they are not schoolish! Teens dont want to waste time, so take a look at ALL our DYI Homeschooling books. These books can be a lovely addition to your students learning portfolio!
