

Dogs That Point, Fish That Bite: Outdoor Essays (Bettie Allison Rand Lectures in Art History)

Jim Dean, longtime editor of *Wildlife* in North Carolina, offers his personal observations on the pleasures and frustrations of hunting, fishing, camping, and other outdoor pursuits. *Dogs That Point, Fish That Bite* draws together fifty of the best columns that Dean has written for the magazine over the last seventeen years. The witty, sometimes poignant pieces are arranged into a loose chronicle of the sporting year, with a generous allowance for digression: the first is set in April, on the opening day of trout season, and the last tells of a New Years Day spent alone in a mountain cabin. At first glance, hunting and fishing are the focus of most of the columns. Often, however, Dean is after bigger game. A crab that escapes the pot leads him to reflect on the capricious nature of life. The restoration of a cabin at the old family farm evokes memories of family and simpler times. And a May panfishing trip takes on the quality of ritual, performed by two old friends. The consistent theme uniting all the essays is the celebration of wild places and rural traditions that have become endangered in our modern world. Earthy, intimate, brilliant, and always wise, these outdoor essays spring from the heart and mind of a replete hunter and fisherman. Jim Dean is among the top few writer-sportsmen in America--and I love this book.--Nick Lyons, author of *Confessions of a Fly-Fishing Addict* Jim Dean brings you his outdoors with long experience, pleasant sentiment and unforgettable wry humor. His hunting, fishing and camping life may have centered in his beloved North Carolina but his pilgrimages to other fields and waters have spiced his stories with memorable comparisons. His book will last.--Charles F. Waterman, author of *Black Bass and the Fly Rod* Jim Dean, longtime editor of *Wildlife* in North Carolina, shares his personal observations on the pleasures and frustrations of

hunting, fishing, camping, and other outdoor pursuits in this gem of a book. Dogs That Point, Fish That Bite draws together fifty of Deans best essays, arranged into a loose chronicle of the sporting year--from the opening day of trout season to a New Years Day spent alone in a mountain cabin. A witty and sometimes poignant collection, it celebrates the wild places and rural traditions that have become endangered in our modern world.-->
