Fat Loss Secrets that Really Work! shows you how you can lose weight without starving yourself or following difficult and dangerous diet plans. Trust me -- I struggled with excess fat, and it was not an easy fix. As the years passed, I felt less and less able to lose the excess fat. I felt hopeless, angry, and confused. My health declined to the point where I finally collapsed into utter exhaustion, unable to do much of anything for months at a time.

I decided that I had to pull myself out of the severe health slump that had befallen me. I started looking for answers. In my search for answers, I discovered that: My health problems were primarily caused by my hormones. My doctors knew little to nothing about helping me to heal my hormones. Following their advice and taking their prescriptions would only make me sicker. The information that I needed to heal my hormones, to lose excess fat, and to overcome my health problems was not in books or on the internet. Instead, I turned to the experts. I began years of intense study with the smartest bioidentical hormone replacement experts on the planet.

I developed a plan to heal my hormones, lose my excess fat, and completely regain my health. I followed my plan. It worked. And now I want to help you do the same. After all, deciding to lose your excess fat is a decision that you make because you have a vision of a healthier life. Its your chance to take control of your health and your life. Follow the advice in this book to balance your hormones as fast as possible WITHOUT damaging your organs. You will discover the secrets to live a life of renewed health and vigor. Discover how everyone can be permanently successful with fat loss without resorting to one of the

latest diet fads. Popular weight-loss methods and diets do not work long-term and may be dangerous to your health when followed for any length of time. The problem is that none of these popular weight-loss methods considers your hormones. Most overweight people have unbalanced hormones, more so if they have been dieting on and off for years and years.
