

Feminist Politics, Activism and Vision: Local and Global Challenges

This volume brings together essays of remarkable variety and fresh insight by leading feminists from Africa, Asia, Latin America, North America, Europe and Scandinavia. With clear-eyed realism and passionate optimism these articles raise crucial historical, organizational, ethical, conceptual, strategic and practical issues facing feminists today. The personal accounts, political speeches and academic articles collected here reveal a vibrant and multifaceted transnational feminist community redefining wealth, work, peace, democracy, sexuality, family, human rights, development, community, and citizenship. They provide a sense of inter-related issues being addressed at local, national, regional and global levels in generative ways which both honor local and global movements.
