

Of Papers And Protests: Hong Kong Responds To Occupy Central Volume 1

When China issued its paper on how the next Chief Executive of Hong Kong would be selected they decided what they thought was best for Hong Kong since its return and incorporation into China. However, the reaction to Chinas decision was probably not expected nor were the events that followed. With the protests the Hong Kong government had to react and when Occupy Central actually took place their reaction had to be stronger. This book deals with the government reactions to the protests. It shows various government public announcements, of the events, as they unfolded as they tried to find an end to the protests.
