

Hands to Spell-Read-Write: Nonsense Botany

This is the first book in the series, Hands to Spell-Read-Write. It introduces the American Sign Language (ASL) Manual Alphabet in a fun way of decoding the ASL handsigns into written words in order to learn the Nonsense Botany names. Children learning their ABCs will also have fun decoding the handsigns into letters and coloring the delightful illustrations. If you already know the ASL Manual Alphabet, then reading this book in just the handsigns would also be fun.
