

How to Successfully Become a Vegetarian or Vegan

Do you want to live Healthier and Save the Earth at the same time ?Becoming a Vegetarian is one of the best ways to get your health in check, and contributing a very green lifestyle to the planet. Meat industry is the biggest polluter of CO2 in the world, even if the automobiles, ships, and airplanes pollution are combined. Discover the Truth of animal farming , and what kind of meat you are eating every day. Human body is not designed to eat meat like carnivore animals because our body system is more tending to fruits and vegetable. We cant process meat fast enough in our stomach without it rotting inside, unlike carnivore animals that have strong enzymes to do it.And Meat industry is the biggest polluter in the world, with every pound of meat produced, the destruction of earth resources is so great. Water, agriculture harvests, lands, forests cleared, etc etcSo lets be kind to ourselves, then we can save others & the mother earth Learn more how you can get your health in check & save the planet for future generations :) . So we can look into our children / grand children in the eyes and not say Im sorry i destroyed the earth This book will help you to become a Vegetarian or Vegan successfully !Even if You Think Its Too Hard !!Even if You Have Tried & Failed Before !!P.S If an alien race coming to earth and believing that they were superior to humans. We would be nothing to themmuch the same way as we look at cows, pigs, and chickensso they would very likely think, These humans are a low, primitive species. We can do whatever we want to them since they cantfight back. We have complete control over them. If these aliens were not vegetarians, there would be nothing to stop them from herding us into pens, cutting off our feet and hands so that we couldnt run or fight back, kill us in slaughterhouses, and then eat us for food. Lets be honest; we taste great! So, they would kill millions of us every day, cut us

up into steaks and chops, store the meat, and sell it to each other in little white, plasticwrapped packages.Its a horrible, horrible thought. Yet this is exactly the way we treat animalsright now, because we believe we are superior to them and we have bettertechnology. But is this really the right way ?
