

I Cant Sit Still!: Living with ADHD (Live and Learn Series)

Titles in Barrons Live and Learn series are sensitively written picture storybooks that take a child's point of view--especially in regard to kids who need encouragement in the face of an emotional or a physical difficulty. Following each story are four pages of suggested activities that relate to its theme, followed by a two-page section that offers advice to parents. Live and Learn titles are also available in Spanish language editions under the series title Vive y aprende. Here is the story of a child who has ADHD--attention-deficit disorder--and is mistakenly perceived as being unruly and incapable of following instructions. Ultimately, this little boy overcomes this problem with help from the family doctor, his parents, and his teacher.
