

Internet Pornography: Awareness and Prevention

Parents and Teachers today are at the unfortunate disadvantage of having kids that know far more about computers and web access than they do. With Internet connections everywhere you look, it is very easy for minors to access pornographic or otherwise immoral material right under their parents noses. This reference brings a guiding light to the parent or teacher who wishes to protect minors from questionable material on the Internet. It is not a fancy software package that claims to do everything for you. It is a guide to show you how to audit your home or school system and keep your computer out of the back alleys of the information superhighway.
