

New Scholasticism Meets Analytic Philosophy (Editiones Scholasticae)

Recent decades saw a revival of interest in Aristotelian and Scholastic thought, particularly among analytic philosophers. Neo-Aristotelians, Analytic Scholastics, and Analytical Thomists have made significant contributions to several fields within contemporary philosophy, including metaphysics, philosophy of mind, and philosophy of science. This volume of new essays brings together some of the leading thinkers of this movement to address such topics as materiality, causation, possibility, privation, and dispositionality. The contributors are Rani Lill Anjum, Edward Feser, Uwe Meixner, Stephen Mumford, David Oderberg, Edmund Runggaldier, and Erwin Tegtmeier.
