

Derailed: Living with Fibrosing Mediastinitis

A book about and for people living with a rare disease called Fibrosing Mediastinitis, a condition usually caused by an excessive immune reaction to histoplasmosis, a fungal disease that is endemic in certain areas of the United States. What is it? How did I get it? What can be done? Explanations of the disease, causes, diagnostics, and treatments as well as personal stories from people living with the disease.
