For literature-based Composition II and Introduction to Literature courses. Literature: An Introduction to Reading and Writing, Compact Sixth Edition is founded on the principles of writing about literature. First, students learn how to engage deeply and critically with a broad selection of stories, poems, and plays. Second, the writing process is carefully and thoroughly integrated into the presentation of all literary genres, elements, and major writers throughout the entire text. Complete coverage of writing about each literary element, casebooks that allow for deeper exploration of important writers in each genre, and a total of 53 exemplary student essays and paragraphs with accompanying commentary ensure that students gain a thorough comprehension of the conventions, strategies, and organizational patterns to allow them to think critically

about literature and to produce thoughtful and compelling essays, paragraphs, documented research papers, and examination responses. --
