

Marjory Stoneman Douglas (Checkerboard Biography Library: Conservationists)

Extraordinary environments endure through the efforts of conservationists such as Marjory Stoneman Douglas. In this engaging biography, readers will learn about Douglass childhood in Massachusetts, her family life and college days at Wellesley College, and her marriage to newspaper editor Kenneth Douglas. Douglass move to Florida began her writing career as a journalist at the Miami Herald and later as a freelance writer. It also introduced her to the Everglades, which would become her favorite place and the subject of her first book, *The Everglades: River of Grass*. Readers will learn about Douglass efforts to save the Everglades from pollution, degradation, and development, including establishing the Friends of the Everglades. Douglas was named Conservationist of the Year two times on her way to earning the Presidential Medal of Freedom and being enshrined in the National Womens Hall of Fame. Today, the Marjory Stoneman Douglas Award is awarded to people who fight to protect Americas National Parks. Checkerboard Library is an imprint of ABDO Publishing Company.
