

Only in Uae, If You Dare! Living in Harmony

Only in UAE, if you DARE! Living in Harmony describes the life of the multi-national population in the United Arab Emirates of over 180 nationalities. The lifestyles of the rich and poor, the living standards, and measures used to evaluate an acceptable lifestyle are explored in concise language. The author looks back at her time in Abu Dhabi, and wishes that she had read a book like this. I wished I had the information prior to my move to the UAE area. I wanted others to be more informed of what to expect. Living in a materialist world seems to be taking away more and more of the humanities and spiritualities; thus the quality of life is declining. The series Living in Harmony is more of a fact-finding quest in countries of the Globe and is an attempt to scratch the surface and bring back the good old days of having neighborhoods; neighbors who cared for each other, valuing humans for who they are; and shutting away the concepts and thoughts of discrimination. The author believes that living is valuing life, with all its spirituality and purity. Dr. Earth Globie counts her time in the UAE as a learning experience, as she saw firsthand the importance of rejecting all kinds of discrimination, including the lack of respect for Mother Earth. About the Author: Dr. Earth Globie is a university professor who resides in California but considers herself as a citizen of the Globe. She is writing her next book, Global Passport.
