

Fast Forward: Tchrs Pt.2 (Oxford Intensive English Courses)

Fast Forward is a series of four courses progressing from elementary to advanced level, which are specifically designed for adults on intensive courses of 60-80 hours. The courses are independent of each other, but are linked in philosophy and approach. For each of the four levels, there are two students books which work in parallel: the Classbook and the Resource Book. The Classbooks concentrate on communicative skills between students in the classroom. They develop speaking and listening skills through such activities as games, role-plays and projects. The Resource books are designed for self-study. They contain self-access summaries of the grammar and communicative functions of each unit, grammar and writing exercises, and reading and listening passages. Each level also has a Teachers Book and cassettes. Fast Forward 2 which is designed for intermediate students, follows the same pattern as the other levels, with increasing emphasis on skills work, project work, simulation and role-play. The teachers book contains teaching notes, tapescripts and extra exercises.
