

Papua New Guinea: People, Politics and History since 1975

From back cover - Papua New Guinea is a country careering away from its past. Its tribal heritage is ever-present, but the demands of the 20th century grow more insistent - men whose fathers can remember the arrival of the white man are now helicopter pilots. Sean Dorney, long-serving correspondent, has written a fascinating and authoritative portrait beginning with a brief overview of its history. (Description by http-mart)
