

The Agony of Algeria

Stone provides a brief historical overview of Algeria since 1830 before focusing on three crucial phases of the postcolonial era: that of Ben Bella and Boumedienne; the reform era of Chadli Benjedid; and the political and economic crisis under the Higher States Committee (HCE). He examines the dominant state institutions?the army and the FLN?and outlines the increasingly bitter divisions, social and political, which account for the current crisis. (Choice)
