

Surviving Prostate Cancer: One Mans Journey

Required reading for all men over 50, plus their partners. Dr James Wright More than 2000 Australian men die of prostate cancer each year. Many thousands more - without knowing - suffer from its effects. Surviving Prostate Cancer is one of the first personal and medical accounts of this common yet little-understood condition. Australian actor and playwright Alan Hopgood was diagnosed with prostate cancer at 59. In the informative, touching and humorous Surviving Prostate Cancer, Alan comes to terms with the emotional and practical issues, while Drs Peter Royce and Mark Ragg provide up-to-date and comprehensive medical details on diagnosis, treatment options and recovery. This revised and updated edition includes Alans account of life as a survivor in the six years after his operation, and a comprehensive update of the medical facts, including details of new medical treatments.
