

The Prisoners of War and German High Command: The British and American Experience

Based on archival research in Germany, Great Britain, the USA and Canada, this study provides the first complete examination of the relationship between the Oberkommando der Wehrmacht (German Armed Forces High Command), and Anglo-American prisoners of war. German military policy is compared with reports of almost one thousand visits by Red Cross and Protecting Power inspectors to the camps, allowing the reader to judge how well the policies were actually put into practice, and what their impact was on the lives of the captured soldiers, sailors and airmen.

The Prisoners of War and German High Command: The British and American Experience The Geneva Convention of 1929 was a bill of rights for every prisoner of war taken by an opposing side. One of the men to be sent to America from England was the most successful U-boat commander of the war Otto Kretschmer who was in command of U-99 and was captured.
