

The Monastic Journey by Thomas Merton (Cistercian Studies)

Written during the last decade of Merton's life, these articles reflect his mature thought on monastic life in community and in solitude. Appealing to the monastic dimension in all of us, his reflections have meaning for those living outside as well as inside monastery walls, fellow travellers on the same journey he took, aware of the fragility and imperfections, as well as the great potential for growth and love, within each human person.
