

Understanding Canadian Business

We've made a great text, greater and the current market leader leads the way again. This new edition includes more technology, a stronger, integrated e-commerce focus, coverage of how technology is impacting business, and more coverage of personal skill development as it relates to career success. All these factors combine to help show the connection between text and the real business world. The text and supporting package comprise a learning system that maximizes the student's ability to explore and establish the skills needed for future growth and success.
