

Listening Power 2 Student Book and Classroom Audio CD

This Value Pack consists of the Listening Power 2 Student Book and the Listening Power 2 Classroom Audio CD.

Listening Power is a new three-book series with a targeted approach to teaching the listening skills that students need inside and outside the classroom and on standardized tests such as the TOEFL and TOEIC. Listening Power2 features four distinct parts designed to be used concurrently. Language Focus teaches essential and sometimes difficult to understand language structures such as questions, numbers, reduced forms, homonyms, and sentence stress.

Comprehension Focus presents skills for understanding main ideas and details, making inferences, and understanding sequence. Activities to help students apply the skills follow the presentation.

Note-Taking Skills teaches students how to identify important words and information. This section also presents helpful techniques such as use of abbreviations, symbols, and formatting. Listening for Pleasure uses interesting audio material from movies, TV, radio, and recorded storytelling to help students understand the more subtle meaning communicated through tone of voice, sentence stress, and reduced forms.
