

The NutritionalSupplements.com Bible: What the Supplement Manufacturers Dont Want You to Know!

Get the truth about the dangerous side effects caused by many of the most popular fat-burning and muscle-building supplements on the market. Find out how you can avoid these side effects, which products cause them, and how you can build the body of your dreams in the safest, most effective manner possible. The NutritionalSupplements.com Bible is a supplement review of the people, by the people and for the people. We hold these truths to be self evident that most supplement review books are merely cleverly disguised catalogs put out by large supplement companies in order to sell their products. That you, the consumer, are intelligent and are justifiably skeptical of any supplement information produced by companies whose sole purpose for existence is to sell you supplements. The problem up until now has been that too much of the power is in the hands of large supplement companies that can afford to bombard you with endless advertising containing carefully selected, often misleading information of their choice. Some companies have even taken to financing double blind clinical studies conducted at respected universities leaving one with the impression that the information produced by these studies is beyond reproach and should be trusted. Unfortunately, supplement companies who finance such studies often only do so after being assured that the studies will be setup in a manner that is virtually guaranteed to produce results that will help sell their products. Such tactics not only make the mistake of insulting ones intelligence, but also commit the far more sinister act of jeopardizing one of the most precious gifts known to man, good health. In order to combat such tactics and create a more perfect union between supplement retailers and consumers we have spent the last several years compiling thousands of supplement reviews provided by honest,

unbiased consumers who use the supplements, but have no financial interest in them. This amazing compilation is now available as a book, The NutritionalSupplements.com Bible. The NutritionalSupplements.com Bible contains valuable information that will protect your health and allow you to obtain the body you have always dreamed of in a safe, effective manner. Including information on:

- * An ingredient found in almost every popular weight loss, fat burning, get ripped nutritional supplement that has been linked to heart problems, panic attack and depression.
- * Two ingredients found in almost every supplement designed to increase muscle mass that have been linked to kidney problems, dehydration, muscle pulls and tears, gynecomastia (the development of female breast tissue in men), acne, and rage.
- * Supplement users reveal the safest most effective muscle building and fat burning products on the market.
- * People who use supplements designed to treat serious medical problems report the benefits and side effects that they experienced.
- * Supplements that should be avoided at all costs because the possible side effects outweigh any benefits.
- * An extremely popular supplement that was blamed for the sudden death of a teenager during soccer practice.
- * Thousands of consumers who have used thousands of different nutritional supplements for years report the benefits and side effects that they experienced and tell you the steps they took to use the products in the safest manner possible.
- * Nutritional supplements used by football player to increase aggression on the field and inflict serious bodily damage with reckless abandon.
- * Supplements used and abused as a means of getting legal highs and much more.

All of the supplement reviews in The NutritionalSupplements.com Bible are provided by outstanding people like you who use the supplements, but have no financial interest in them. These reviews cover virtually every nutritional

supplement, herb, and alternative medicine on the market. Now, you will know the truth about how well these products works before you buy them. You will save hundreds of dollars because you will only be buying products that work. More importantly, you will be protecting your health by learning the truth about all of the benefits and side effects that popular nutritional supplements can cause and quick and easy methods of avoiding these side effects.
